Dear Mr. Jorgenson

I have been very impressed with R Jorgenson Company's supply and installation of lockers and benches for our new Bridger Coal Company bath house facility. R Jorgenson Company has been flexible in meeting our requirements on this project and our organization appreciates your willingness to accommodate our changing needs.

It was and is a pleasure to work with your company from the conceptual phase through the completion of the project. I am glad to have R Jorgenson Company as a valuable asset for future projects.

Please accept my personal thanks and congratulations on a job well done. I look forward to working with you and your organization in the future.

Sincerely,

John C. Lewis, P.E.
Senior Operations & Planning Engineer
