**RE: RECOMMENDATION OF R JORGENSEN COMPANY**

Central Office Suppliers is a privately held office Products and Commercial Design business located in Salt Lake City, UT. During the past 5 years I have served as CEO. It is my pleasure to provide the R Jorgensen Company with the strongest recommendation possible to support the lines that they represent.

I met Dave Arbon a sales associate in 2007 as he was sourcing Office Furniture for their remodel. Since then, Dave and I have worked together for the past year regarding a redesign of our 10,000 sqft Fulfillment Center with a mezzanine and conveyor system. During this process, the R Jorgensen Company consistently surpassed our expectations meeting demands of our owners, partners and customers from the signing of the purchase agreement to the completion of the project.

R Jorgensen Company has some of the most knowledgeable staffs in the industry. All of their employees demonstrated strong written and verbal communication skills throughout the entire process. Their greatest qualities, however relate through on time delivery and time management from start to finish.

I am confident that the R Jorgensen Company is one of the finest Dealers for Rack and Shelving in this region. We consider ourselves fortunate to have chosen the R Jorgensen Company for our project as other companies- none are more deserving of this recommendation.

Sincerely,  
Central Office Suppliers
