

**220 Lockers & Locker benches**

Date: March 6, 2009

Subject: Letter of Recommendation for Jorgenson Company

To Whom It May Concern:

With this letter I would like to recognize the great service we received from Jorgenson Company and recommend them for future work.

Jorgenson Company provided the materials and labor to install 220 (ea) personal lockers in our new Operations Change Facility. Working with Lance Jorgenson, the materials were specified per our operators' preferences and delivered on time as promised. The installation crew worked with our project schedule to get the lockers installed to meet the project deadline. It was pleasant working with the crew, and the foreman, Chuy Flores, was quite accommodating to changes in the construction schedule.

Again, thank you Lance Jorgenson and Chuy Flores for a successful job.

Sincerely,

Phong D. Nguyen,

Project Engineer
