

To whom it may concern,

This letter is written to express our complete satisfaction with the services provided by Jorgenson Companies in helping us create an organizational system for our warehouse.

Here at Williams our warehouse space wasn't meeting our needs, we were looking for ways to gain and utilize more space in a cost effective manner. Jorgenson Companies helped us design a free standing mezzanine to improve and create a more functional and adequate system for our warehousing needs. The installers were extremely helpful and answered any questions we had, they were also quick and highly efficient.

Jorgenson Companies were extremely easy to work with; always kept us informed and delivered on time as promised. I would recommend them to anyone.

Again, thank you for a great job.

Sincerely,

*Erin Erickson*
