Subject: Letter of Recommendation for Jorgenson Companies

To Whom It May Concern:

With this Letter I would like to recognize the great service we received from Jorgenson Companies and recommend them for future work.

Jorgenson Companies provided the materials, drawing, permits, expertise and labor to install a new 40,000 square foot facility working with Lance Jorgenson, the materials were specific to our needs and delivery on time as promised. The installation crews worked with our project schedule and accommodated changes professionally and promptly. This was the first time our company decided to move a warehouse facility during normal working hours. This enabled us to stock the shelves as installation of the shelving and racking was being performed. While our plan allowed for change we certainly tested Jorgenson Companies ability to react and respond to immediate request where they were able to handle any additional materials we needed. I highly recommend Jorgenson Companies for any size project.

Again thank you lance and team for a successful job.

Sincerely,

A handwritten signature in black ink, appearing to read "Gary Brown".

Gary Brown
